Tailoring - Suits, Blazers, Coats and Jackets

Slim Fit

Our slim fit suits create the perfect slim silhouette, for a narrower appearance in the shoulders, arms and chest, with a standard slim fit trouser.

X-Slim Fit

Our X-Slim Fit suits are our slimmest cut of suit with a very slightly narrower arm, shoulder profile and (in suiting) leg width than our standard slim fit.

Tapered Fit

Tapered fit is a more generous cut with more room through the chest, arm and leg while still maintaining a tailored silhouette.
